

mediate solutions for their problems. Those problems do not show up overnight, and no one should expect overnight solutions. What we can do is show these troubled individuals that they are not alone and that they do have rights and worth and deserve to be treated with respect.

Please tell your readers that if they want further information, they can send a stamped, self-addressed, long envelope to Toughlove, P.O. Box 1069, Doy-

warren, Ohio Chapter of Toughlove

DEAR WARREN: Thank you for laying it out in clear, concise language that everyone can understand.

I was one of the first supporters when Toughlove was started by Phyllis and David York in 1979. They have done a marvelous job and have earned the everlasting gratitude of thousands of parents and their children.

Write to Ann Landers, P.O. Box 11562, Chicago, Ill. 60611-0562.

## Public Meeting Notice McNAMARA AND PEEPE SITE

The bankruptcy trustee for the former McNamara and Peepe Corporation, together with other responsible parties, have been investigating the contamination of soil, groundwater and surface water by wood preserving solutions at the former McNamara and Peepe lumber mill. Investigation of this site has been conducted with oversight by the Department of Toxic Substances Control (DTSC). The site is located at 1619 Glendale Drive, about three-and-one-half miles northeast of Arcata, in the community of Glendale. Results of the investigation have been incorporated into a Draft Remedial Action Plan which outlines the preferred method of mitigating potential health and environmental risks. Responsible parties for the site propose to construct a reinforced concrete cap to cover the contaminated soils at the green chain building and place a deed restriction on the property, restricting its further use. This cap will prevent potential contact with the contaminated soils thereby protecting human health and the environment and allowing continued industrial use of the property. DTSC has determined that this activity will no have any significant environmental impacts. Pursuant to the California Environmental Quality Act of 1970, DTSC is proposing a "Negative Declaration" for the remedial activities recommended in the Draft Remedial Action Plan.

A public meeting will be held to provide information about and take comments on the Draft Remedial Action Plan and the Negative Declaration. Department representatives will be present at the meeting to discuss these documents, answer questions, and receive comments from the public. Interested citizens are encouraged to attend:

**Tuesday, January 11, 1994  
7 to 9 pm**

**E&O Bowl  
1417 Glendale Drive  
Arcata, California**

The public is invited to comment on the Draft Remedial Action Plan and the Negative Declaration. A 30-day public comment period will be open from January 3, 1994 to February 2, 1994. Copies of both documents are available for review at the Humboldt County Library, Arcata Branch, at Seventh and "F" Streets, Arcata, California. Hours: Wednesday and Thursday 10 a.m. to 8 p.m. Friday and Saturday 12 p.m. to 5 p.m.

Interested citizens may submit oral or written comments to the Department at the public meeting or mail comments directly to:
